

Writing Seo Friendly Unique Articles To Get Back Links & Search Engine Optimization.

What are SEO Articles? An SEO article is one that is keyword-rich and provided useful information to users. The main goal of an SEO article is to increase search engine rankings and to direct traffic to improve sales. Talking about keywords to be used, they must be used in the right proportion/no of times it is used i.e. Keyword Density. This keyword density is evaluated by various search engines using their own algorithms. Once SEO articles are written, they are submitted to various article directories like EzineArticles.com and Articlesbase.com to attain back links. Let's us find out what they are and how they can help.

Back links & a Brief Description

Back links may be defined as the website link/URL on any other site pointing towards your website. Links can be from other websites, link directories, article directories, blogs, and more. Obviously if you receive more back links, it will boost the Page Rank and rankings thus increasing traffic to your site. The quality of links is determined by the quality of the website the link is placed on. Back links from quite famous sites definitely has more influence. Thus the key role played by this back links in increasing the rankings cannot be neglected. Next important thing will be the Anchor text (Keyword-rich hyperlink) since each search engine follows varied Anchor texts and the relevancy of anchor text in line with the subject matter is also crucial.
